PREFACE.

This is the 29th annual edition of the Atlanta City Directory and in presenting it we feel that it reflects credit upon Atlanta and honor to her citizens.

During the year Atlanta has enlarged her territory by the addition of the 8th ward, thereby securing more than the coveted 100,000 people within the actual city limits; this, however, does not affect the City Directory, because we have always included in the book those who live as far out as Buckhead, College Park, Waterworks pumping station, Kirkwood, Lakewood, Westview, East and South Atlanta, and in making our calculations as to the population they have always been figured in.

As the city can now afford to stand squarely on her actual possessions, we feel that it would be wise, for the benefit of future records, to confine our figures as closely as possible to the actual residents within our borders; therefore, while we have this year, as usual, canvassed the suburban territory, we base our calculations on Atlanta's actual residents and also give an estimate of the number of people who live just outside the city limits.

POPULATION

Within the city limits	108,381
Within the territory compassed by the directory and outside of the city limits	39,528

147,909

This shows an increase of 7,427 people since last year.

This, coupled with the large amount of money spent for railroad terminals, yard and trackage property in and around the city, and the large number of new industries located here, and old ones increasing their facilities, mark 1904 as the most prosperous year in the history of Atlanta, and to-day promises greater things than ever for the future.

Buy home-made goods and keep Atlanta money in Atlanta and thereby help make Atlanta the biggest and wealthiest, as it is the best and healthiest city in the Union.

Respectfully,
ATLANTA CITY DIRECTORY,
JOSEPH W. HILL, Mgr.

Sent POST FREE upon request.

"Memory training has received attention from some of the greatest psychologists of the world, and many different systems have resulted—some of these have been mere stumbling-blocks, which have thrown back instead of advancing the science; others have achieved partial success. It has been left, as is so often the case, to the most simple and sensible method to attain the best results. Mr. Pelman has perfected a system which will make a naturally bad memory good, a good one better, and will save the fortunate possessor of a good natural memory an enormous amount of brain effort."—*Review of Reviews* (London), March, 1902, W. SAVE HALF YOUR CIGAR MONEY.

If we cannot save you half your cigar money and give you the same quality or better than you now use, we will

Refund Your Money

There is no doubt about it. If you could come and see how we conduct our business, the quality of tobacco we use, the cleanliness of our plant, which has been pronounced by Government Inspectors the cleanest and most sanitary plant in existence, and could let us explain fully our price saving method, you could not help but be convinced that here is an opportunity—a golden opportunity—and the sooner you take advantage of it, the better for your enjoyment and your pocketbook.

We Could Show You

the names of thousands of permanent customers who have taken up our **Direct Plan of Sale**; explain how we can send

**Direct from Our Factory to You
(Transportation Charges Prepaid)**

the same cigars at the same prices sold by others to jobbers only in lots of 10,000 and upwards, giving you the best quality of cigar at **one-half** what you would have to pay if bought at retail.

What to Do—How to Do It

Send us \$3.75 (7½¢ each) for 50 LaPERSEVERO, either Panetela or Camelas shape. We guarantee them to equal the best 15¢ Clear Havana cigars.

Or, if you prefer a Sumatra wrapper around a Clear Havana filler let us show you what kind of a ten-cent cigar you can get for 5¢—send \$5.00 for 100 LaMEDALLA Conchas.

Or, if you don't know quite what you like, try our sample assortment of 12 cigars, showing four varieties of 10¢ and two-for-a-quarter values which we offer for 75¢.

Or, for 50¢ we will send you an assortment of twelve high-grade 5¢ and 10¢ cigars.

Why hesitate?

Every box comes to you **transportation charges prepaid**. No matter how many cigars you smoke out of it, if at any time you feel dissatisfied with your purchase, return the balance to us and we will immediately refund the price of the full box.

Palmer, Mass.—“Your cigars all right. Don't see how you give such good cigars for so little money.”

John Wanamaker Pays \$10,000 a Year to the Man Who Prepares His Business Literature.
Why? Because

Good English Pays

Nowadays, when billions of dollars' worth of business is transacted by mail, the ability to write a strong, original, convincing letter is an imperative business requirement. No man can hope to reach the highest place in business if he is unable to express himself clearly and forcefully. The language you use in correspondence—or even in speech—must help you sell goods, win customers, collect debts, even secure the positions you hold, but it can not do these things if weak, clumsy, and half intelligible. The success of an idea or plan—often of a business itself—depends upon the way it is presented.

HOW IS YOUR ENGLISH?

Are slips of speech habitual with you? Are your letters dry and poorly worded? Do they lack the snap, the tone of words that win? Get out of this rut. Master the principles of smooth, easy, fluent expression—of crisp, powerful, straight-from-the-shoulder business English. Tighten your grasp on the English language—it pays.

The man who will help you is Sherwin Cody. He has an international reputation as an expert on English for business men, and now has put his private lessons into four handy little volumes (time-saving size)—seven complete courses. Word Study, Grammar, Punctuation, Composition, Business Letter Writing, Story Writing, Creative Composition. hitherto sold in Typewritten form for \$15 to \$25 for each separate course. These books contain everything that will help you, nothing that is mere lumber. Better than a dictionary, because they teach a man to be his own dictionary.

Several large business concerns have introduced these books to all their clerks, from the merest stenographer to the most experienced correspondent. Heads of big businesses like Marshall Field & Company, Lyon, Healy & Company, Tobey Furniture Company, Montgomery Ward & Company have personally indorsed them. No stronger testimony could be given.

You, Mr. Business Manager, or You, Mr. Credit Man, Mr. Advertisement Writer, Mr. Correspondent or Stenographer—you will find these books of daily help. They will get you out of the habit of writing time-worn commercial jargon and into the habit of writing winning letters that get results. To You, Mr. Young Man Entering Business—no matter what your line—they are better than a dozen business college courses. They will give you a mastery of effective business English—they are a short-cut to a good position—a large salary.

PATENT YOUR IDEAS

\$100,000 offered for one Invention; \$8,500 for another.

Book "HOW TO OBTAIN A PATENT," and
"WHAT TO INVENT," sent free.

WHEN you have invented something, don't give it to the world for nothing, and don't lock it up in your mind until some more energetic person steps in and makes himself comfortable by securing a patent for the same thing. Hundreds of such cases have been known. Get a patent now.

Send us a Rough Sketch and Description of Your Invention.

and we will advise you, free of charge, as to whether or not you can obtain a patent. A model is not absolutely necessary, but if you have one send it. Don't be satisfied with an attorney's opinion that your invention is new, but have the records searched. We always examine these records, and make no charge for the service. If the invention is new

WE WILL GET YOU A PATENT

on most reasonable terms, and, if you wish to sell it, we will advertise your patent for sale at our expense. This will include valuable and extensive newspaper advertising, such as will bring the invention to the notice of thousands of possible purchasers.

The Quickest Road to Wealth is to Invent Something and Have it Patented.

FREE BOOK ON EYE DISEASES

A Message of Hope to the Blind.

I WANT every one who has any form of Eye trouble to have my book.

A postal card will get it free of charge.

It illustrates and describes a majority of Eye Diseases and gives valuable advice on the care of the eyes.

Tells how to diet, bathe, exercise, etc.

It tells all about the Oneal Dissolvent Method and what I have been able to do in the most serious, chronic eye troubles.

It tells how you can cure yourself in your own home easily and at small expense.

I WILL also diagnose your case, and advise you free of charge. I am interested in every case of eye disease.

I often receive letters from people who have been cured by following my advice and instructions given in my book which did not cost them one penny.

If I can cure you without expense I will gladly do so.

My treatment is harmless and painless; my patients treat themselves in their own homes.

ALL Eye Diseases are dangerous. No matter how slight or insignificant your eye trouble may seem

It may result in blindness unless treated now.

Don't neglect your eyes a moment if they are bothering you in the least.

Consult a competent oculist *at once*.

Do not be like thousands of others who have failed to heed this warning till too late.

I have restored sight to thousands of people in all parts of the world who sought my aid as a last resort.

Many of them had been given up as hopelessly "incurable" by others, yet I cured them.

I can do as much for you.

The publisher of this directory will vouch for my entire reliability.

My book and advice will in no way obligate you to take my treatment, nor cost you one penny. Address

THESE people wrote me as I am asking you to do, treated themselves at home under my direction and were cured.

Most of them had been given up as "hopelessly incurable" by other oculists:

"Though I am 81 years old you cured me of cataracts in three months after I had been afflicted for years."—Col. J. O. Hudson. Station F, Grand Rapids, Mich.

"At 70 I had been practically blind with cataracts for years. You cured me in three months."—Mrs. A. P. Rifle, 78 Niagara St., Buffalo, N. Y.

"Blind 20 years from cataracts caused by a shell explosion during the civil war cured by you in three months. It's marvelous."—Albert J. Staley Hynes, Cal.

"I suffered everything with optic nerve paresis and granulated lids for 22 years, tried everything in vain, wrote to you as a last resort and was cured in two months."—Mrs. E. I. Carter, Tenstrike, Minn.

"Almost blind for 10 years with cataracts; cured by the Oneal Dissolvent Method in two months. Thank God I heard of you!" Mrs. H. S. Spencer, Northport, Mich.

"Dr. Oneal cured me of glaucoma in two months after New York oculists had failed to help me."—Washington Irving, Box 183, New Paltz, N. Y.

"You cured me of a bad case of cataract in two months."—F. H. Nye, 247 Columbus Ave., Suite 9, Boston, Mass.
